COVERT 2

TECH MANUAL

FEATURE SUMMARY

1 EASILY REMOVABLE MASK

The mask is easily installed and removed because it is guided by strong neodymium magnets. Its purpose is to shield the rider from excessive winds, dust, and small flying objects. It has two mouth vents which are covered by mesh filters to filter out smaller particles. NOTE: The mask is for aesthetics and comfort. It does **not** provide protection from impacts.

2 SPEEDVIEW® RETRACTABLE INTERNAL SUN VISOR

The retractable internal sun visor protects the rider from excessive sunlight, dirt, and small flying objects. It is optically clear and features a state of the art fog-free technology, a anti-scratch hardened coating, and UV protection.

3 KWIKWICK® C LINER FABRIC

The removable and washable liner features a soft and supple hypo-allergenic, anti-bacterial material with advanced moisture wicking properties.

4 SPEAKER POCKETS

Speaker ducts designed into the EPS allow compatibility with communication unit speakers up to 40mm.

5 KWIKFIT®

Kwikfit® cheekpads allow easy on and off of the most common styles of eye glasses.

6 3D CONTOURED CHEEKPADS

Plush removable and washable 3D contoured cheekpads for ultimate fit and comfort lined with our KwikWick® C Fabric.

7 AERO-TUNED VENTILATION SYSTEM

Adjustable RAM-Air intake ports force cool outside air into the helmet interior.

LINE ARTS SHOWN IN THIS
MANUAL ARE FOR
REFERENCE ONLY
AND MAY VARY FROM
ACTUAL PRODUCT.

⚠ WARNING

Use the removable mask only for weather protection, not for impact protection.

Improper use of the mask may cause severe injury or death by impacts exceeding the helmet's protection capability.

SCORPION
EXO

» REMOVING THE MASK

Open the shield.

Push the button on one side of the sleeve.

While pushing the button completely with one hand, pull out the mask with the other hand.

Do the same for the other side of the sleeve.

» INSTALLING THE MASK

IMPORTANT NOTE:

The Mask is NOT FOR PROTECTION but for comfort use.

Push the mask into two holes in front of the sleeve until you hear "click" sound.

Be sure to hear this "click" sound to secure the mask. Then pull the mask to outer direction several times to check whether it is securely assembled to the helmet.

⚠ NOTE This helmet is equipped with small Neodymium magnets to help guide the front crown snaps into place during installation.

» USING SPEEDVIEW® SUN VISOR

To lower the sunvisor, simply pull the SpeedView® Sunvisor lever down.

To raise the sunvisor, simply push the SpeedView® Sunvisor lever up.

» REMOVING SPEEDVIEW® SUN VISOR

First, remove the mask. Next, with the sunvisor down, firmly grasp and pull the sunvisor forward and away from the helmet one side at a time.

Repeat to release the opposite side. Reverse the process to re-install.

⚠ WARNING

Always check to make sure the crown liner, neckroll and cheek pad are installed before using the helmet. A helmet without the crown liner and/or cheekpad may increase your risk of serious injury or death.

» CHEEK PADS REMOVAL

Gently pull out the cheek pad to the other side until three plastic snaps are detached from the helmet.

Repeat the process to remove the cheek pad on the opposite side.

» CROWN LINER REMOVAL

Once both cheek pads are removed grasp the crown liner near the back of the head and pull the liner toward the eye port to release it from the plastic snaps. Once unsnapped gently tug on the crown liner to release it from the forehead tension groove.

Reverse this process to reinstall the crown liner and cheek pads.
