OWNER'S MANUAL

Belfast

THE BELFAST'S HARMONIOUS DESIGN PAYS HOMAGE TO THE HERITAGE OF THE CLASSIC 3/4 OPEN FACE HELMET. A PERFECT BALANCE OF RETRO STYLE, MODERN COMFORT AND STATE-OF-THE-ART TECHNOLOGY.

PERFORMANCE FEATURES

1 Hand-Laid Fiberglass Shell

Each shell is individually hand laid to ensure they meet the top industry standards

2 SpeedView® SunVisor

Retractable & interchangeable internal sun visor for you convenience when riding into the sun.

3 Genuine Nappa Leather Accents

Subdued yet elegant Nappa leather accents for your faces enjoyment.

4 KwikFit™

Kwikfit™ cheekpads allow easy on and off of the most common styles of eye glasses. Eliminate temple pressure found on most helmets.

5 Plush Hand-Stitched Liner

Every detail counts, even the liner. That is why we require our seamstresses to meticulously hand sew the liner in the Belfast, perfection cannot be rushed.

6 DOT Approved

7 5 Year Warranty

8 3 Shell Sizes

Introduction

Congratulations for acquiring a premium ScorpionExo® helmet. This helmet embodies the latest, state-of-the-art design, engineering and technology available in the market today and is an excellent investment for your comfort and protection.

Please remember that no helmet can protect you against all possible or foreseeable impacts even when built with the latest material and technology.

The following information will help you to enjoy and properly care for your helmet.

Function

A helmet's main function is to protect your head from impact in case of an accident. To accomplish this, a helmet surrounds your head with a matrix of materials designed to absorb and cushion impact energy in some accidents. A helmet is also designed to provide you with comfort while riding at speed and in various weather conditions. Yet, there is a trade-off: A helmet decreases hearing sensitivity, peripheral vision and physical movement to a certain extent while providing protection and comfort.

Fit

It is important for maximum safety that your ScorpionExo® helmet fit snugly and comfortably on your head with the retention strap (chinstrap) properly and snugly fastened. With the chinstrap firmly fastened, grab the back of the helmet with both hands and try to roll the helmet forward. If you can roll the helmet over the eyes, it is too loose and you should try another size helmet.

SpeedView® SunVisor

The SunVisor on your ScorpionExo® helmet provides protections from some weather, small flying objects and wind. In some cases the SunVisor can allow debris to enter from the bottom. Check local laws for proper eye wear requirements.

NEVER WEAR A DARK OR TINTED SUNVISOR IN DARK OR POOR VISIBILITY RIDING CONDITIONS. This is not only unsafe, but also illegal in most states.

NEVER WEAR A SUNVISOR THAT HAS BECOME SCRATCHED, OR RIDE WITH A SUNVISOR THAT IS FOGGED BY CONDENSATION. SCORPIONEXO™ SUNVISORS (CLEAR AND SMOKE ONLY) COME WITH A SCRATCH-RESISTANT COATING.

SunVisor removal and installation on page 3 >

Removal of SpeedView® Sunvisor

REMOVAL of SpeedView® Internal Sunvisor for cleaning or replacement.

Lower the Sunvisor to its lowest point. Firmly hold the Sunvisor with your hand and gently pull one side out away from the helmet to release. Repeat to release the opposite side.

Reverse process for installation.

Securing and Wearing your Helmet

Do not simply pull your helmet down onto your head like a hat. Your ScorpionExo™ helmet should be worn as follows: Using both hands grab the helmet's bottom rim while holding the chin straps with your thumbs. Then "roll" the helmet onto your head starting at the forehead. Continue rolling the helmet on towards the back of the head until it comes to rest with your head fully in contact with the inner lining and cheek pads.

HOW TO USE CHINSTRAP

FIRMLY AND SECURELY FASTEN YOUR CHINSTRAP.

Check your chinstrap for tightness occasionally as vibration or wind may loosen it.

Cleaning Your Helmet System

None of the components of your ScorpionExo™ helmet can be damaged by water. All headliners and sweat-wicking cheek pads are machine washable. Wash them with a mild detergent in warm water and allow to air dry. Hand washing is recommended, but machine washing is also permitted. Use the "delicate" cycle to prevent the agitator from damaging the

sweat-wicking material covering the liner parts. Do not place lining parts in the dryer: Excess heat may damage the foam and coverings. The faceshield may be cleaned with plastic polish or mild soap and water. The shell of your helmet should be cleaned using only a mild detergent and water. NEVER USE PETROLEUM BASED CHEMICALS, SOLVENTS, GASOLINE, CLEANING AGENTS OR ADHESIVES to clean the shell, liners or faceshield of your helmet. Your helmet shell, liner and faceshield may be seriously damaged by the use of such products.

Warning

For your safety, it is important that you completely read the owner's manual and all warning labels.

DO NOT

- DO NOT** ride without snugly fastening your chinstrap.
- DO NOT** clean your helmet with petroleum products, solvents, benzene, thinner or cleaning agents.
- DO NOT** paint over your helmet's finish without totally protecting and isolating the shock-absorbing liner and plastic parts. Your warranty will otherwise be invalidated.
- DO NOT** drop your helmet from any height onto a hard surface. This could cause damage to your helmet's finished and/or decrease its ability to protect you.
- DO NOT** place your helmet on your motorcycle's rearview mirror: The sharp pressure from the mirror's edge will compress and damage the helmet's shock-absorbing liner.
- DO NOT** place your helmet on the motorcycle's seat or fuel tank. It can easily roll off and hit the ground causing damage to the helmet. It is best to place your helmet on the ground so it cannot fall in any direction.

DO NOT ride with a scratched faceshield. This can impair your vision, especially at night.

DO NOT modify any part of your helmet, e.g., drilling the shell or cutting and pressing the shock absorbing liner. Installation of sound systems, speakers and microphones reduces your helmet's ability to protect you and is not recommended.

DO NOT use the helmet again if it has either been dropped or involved in an accident. Replace it even if the damage is not visible to the naked eye.

DO NOT wear a dark or tinted faceshield (including the retractable SpeedView™ Sunvisor) in dark or poor visibility riding conditions.

DO NOT place your headliners and cheek pads in the dryer after washing. Allow them to air dry.

DO NOT attempt to remove, change or replace your faceshield while riding your motorcycle or ATV.

DO NOT use paint which requires heat curing.

Warranty

For on-line registration of your new ScorpionEXO helmet, please log onto www.scorpionusa.com/support/product-registration.html. Should you have a warranty claim, please call 888-672-6774 or email warranty@scorpionusa.com during business hours (PST).
